

Message:

- EPA, BLM, CDPHE and Sunnyside are now working collaboratively to develop the legal framework for their collaborative relationship to improve water quality in the Animas River.
- As part of that process, EPA and Sunnyside will be making information requests of each other. These requests are part of the collaborative process and are not a precursor to a Superfund Listing on the National Priorities List.
 - It is our understanding that EPA will not be making information requests other than to Sunnyside and companies affiliated or associated with Sunnyside and, while the information request to Sunnyside will take the form of a 104(e) letter, it will not include any Notice or Demand.

Delivery:

- 24, 27 or 28 August. (Method of communication at discretion of responsible person)

Responsibilities:

Contact	Responsible Person
McKay	Larry
Kulhman	
Rhoades	
C. Tookey	
Safranski	
Schertz
